

Greyhound Canada Depot Allocations

JB wrote:

Greyhound Canada has adopted a system in use by GLI for a couple of years, whereby units in the fleet have been divided up and assigned a "home base" for maintenance purposes. Units assigned to these local pools (VAN=Vancouver, EDO=Edmonton, TOR=Toronto) are dispatched to and from their home base when scheduled maintenance is due.

The pool is denoted by a small green circular sticker on the right hand side close to the fleet number.

DR, added:

VAN decal is red, all Island coaches have red VAN decals on them.

and Nova9419:

The pool stickers for TOR are black.
